Subject: Deficient Application for Transfer of Notice of Intention (Form MR-TRS), Rock Products of Utah, Inc., Brown's Canyon Rock Quarry 1, S/043/0017, Summit County, Utah

Dear Mr. Wurth:

On February 1, 2011, the Division received an application to transfer the Notice of Intention to Commence Large Mining Operations (NOI) for the Brown's Canyon Rock Quarry 1 from Rock Products of Utah, Inc., to Castle Valley Stone, LLC. The following items need to be addressed before the Division can give final approval.

1. Revised amendment with correct property ownership information. On March 10, 2011 the Division received an amendment listing Develon Wurth as the mineral owner, but form MR-REV- submitted with the amendment says, "NOI# 7 Page 2 minerals is the same as the land surface: Thayn Revocable Trust". Please submit a page showing the correct surface and mineral ownership. The pagination for the new page needs to match the other replacement pages submitted with the transfer application.
2. Map and surety calculations. The Division needs to receive a current map of the disturbed area and a revised reclamation cost estimate. The reclamation surety amount is due for re-evaluation on April 18, 2011, and it appears the acreage figures in the NOI may not reflect the full extent of disturbance at the site. The increase in surety discussed in item 1 above (from \$83,100.00 to \$101,355.00) should be applied to escalation and the increase in disturbed area acreage. Please submit the maps and calculations no later than April 18, 2011. Spreadsheets to be used for calculating the surety can be found on the Division's web site at http://linux1.ogm.utah.gov/WebStuff/wwwroot/minerals/bonding_worksheets.html.
